Simple? Told you it was.

How far are you willing to travel to a dark sky site?

Hampshire Southern England North of M4

Play nicely...

HantsAstro believes in common sense as do you, as you are over 18.
We could bury you under pages of rules and regulations, but we really are different.

This is how we work: Arrive, Setup, Observe, Enjoy. Go Home.

Rule Number One:

Leave the site as you found it, but never leave anyone alone at a site.

That's the only unbreakable rule and the primary one. Never observe by yourself.

Rule Number Two:

Astronomy will always come first... Anything else just isn't cricket, if you don't follow our etiquette (see our website!) you might not be asked back. No biting or pulling hair, stabbing of any kind, sleight of hand or fisticuffs or the only Northern Lights you'll see are the blue one's ... on top of a Police Car.

Constitutions may be arbitrary, the Law isn't. Neither are we.

Rule Number Three:

If you do not adhere to the above you will be requested to leave. In the day you can argue all you want, at night with us you can't.

Insurance

As a member or Core Team member you are covered by our insurance but your own equipment isn't, we'd advise you to get some. It's dark out there and a broken mirror is 7 years bad luck!

Refunds

We don't control the clouds so don't do refunds, but we will if the issue is genuinely our fault.

Astronomy is simple and so are our three rules and our ethos, break any of them and you'll be out on your own. Serious stuff over, let's go Play.
